The TEXAS ASBESTOS HEALTH PROTECTION ACT requires building owners and contractors to provide the city with evidence that asbestos surveys have been conducted on portions of buildings affected by the planned renovation or demolition by a person licensed under the Act. Acceptable evidence for the City of Port Lavaca shall be the completion of this document by the building owner under construction or demolition or the contractor applying for the permit acknowledging that the survey has been conducted.

I, _____, am the owner of the building at this location, and acknowledge that an asbestos survey has been conducted by a licensed asbestos inspector for the same address prior to the acceptance of a permit.

I, _____, a contractor, acknowledge that an asbestos survey has been conducted on the building at this location prior to acceptance of a permit by a licensed asbestos inspector and the owner of same building has been made aware of this requirement.

PENALTIES

State health inspectors have authority to enter any areas to determine compliance with the regulations of the Texas Asbestos Health Protection Act. In addition, violations can result in a **fine of up to \$10,000** a day. As long as the violation continues, each day is considered a separate violation.
