

The Auction was a Success!

The Port Lavaca Power Switch energy auction was a great success! We secured a very competitive rate with Texans Energy and are keeping registration open through May 21st. If you haven't already signed up, join your friends and neighbors and find out if you could save on your energy bills.

More on the winning offer

The fixed energy charges offered by Texans Energy are approximately **20% lower** than the average rates of similar plans offered by the 5 biggest providers in the area on the day of the auction. Households that accept the offer are expected to save approximately **\$400** annually. Click [here](#) to learn more and to register.

Price Protection

With the Port Lavaca Power Switch, you can lock in a competitive electricity rate that allows you to pay the same price per kWh for the next 12 months, even if market prices change. With fixed-price electricity, there are no energy bill surprises. You'll enjoy the security and convenience of knowing that your rate won't change for an entire year.

What's Next?

We'll start sending out emails with the personal offers on April 30th. If you decide to accept the offer, iChoosr will take care of the entire switching process for you. If you need help or have questions, iChoosr is here to help. You can reach iChoosr by calling 888-376-2077 from 8am to 10pm (Mon through Sat). For more information, check out the video below.
