

**ADDENDUM NO. 1  
PLAYSCAPE NO. 2 REPLACEMENT  
LIGHTHOUSE BEACH  
CITY OF PORT LAVACA, TEXAS**

SECTION 01010:

ADD: 1.6 Disposal of waste materials: The City of Port Lavaca will provide a dumpster positioned near the location of the playscape for the use of the contractor for various shipping waste materials.

ADD to 1.2.C: The Contractor will have access to the Public Works Maintenance Yard at 628 W. George Street for delivery of materials and equipment and use as a laydown yard.

ADD: 2.3.e. Subbase: The subbase shall be compacted aggregate – 4” minimum of ¾” minus irregular stones with fines compacted to 95% in 2” watered lifts, or as otherwise recommended by the manufacturer of the safety surfacing system.

ADD: 2.3.f. Safety surfacing borders shall be min. 2500 psi concrete with a ½” deep x 2” wide installation key, or as otherwise specified by the safety surfacing manufacturer. Visible width of the concrete border at the surface shall be minimum 6”. The configuration of the border of the safety surfacing shall be such as to comply fully with the minimum distance requirements from various play features as required by the CPSC and ASTM.
